

The Pex Organizer

When it comes to installing Pex tubing, the Pex Organizer gives you a clear and simple way to identify the specific use of the tube and communicate that use instantly or for future reference on the job sight. Simply insert the same numbered peg into each end of the tube then describe the use next to the corresponding number on your reference sheet and you have a neat and professional way to relay information to everyone involved. Also the bullet shaped peg makes feeding your Pex Tubing much smoother through tight openings. So stop using tape that can bind up, tear off or magic markers that smudge. Get the professional and easy to use * Pex Organizer.
